TWIN-CAM
In-Line Bearings

TWIN CAM In-Line Bearings are manufactured using the highest quality military grade Chrome steel available - SAE 2100. TWINCAMS use grade 10 steel balls to meet the specifications needed for exceptional superior performance and the ability to handle the excessive side loads of in-line skating.

All cages are made of a highly polished brass to reduce bearing friction and allow for smoother ball rotation.

All inner and outer raceways are undercut to prevent lubricant leakage and contamination.

BAUER Skates
for Hockey and Freestyle

F3 $99
Lightweight and supportive, this skate has a vented liner and anatomical footbed for maximum comfort and control. Wheels may be rockered as well as base may be lengthened for increased stability. Complete with 70mm wheels and ABEC 1 Precision Bearings. (40.713)

F5 $169
Available in women's and men's sizes, this skate offeres full arch support to enchance performance and stiffer chassis for stability and good energy transfer. Bolt mounted, the chassis can be offset up to 5mm up front from center. Flush mounted axle system included and the skate will accomodate up to a 77mm wheel. (40.719)

At Last! The long-anticipated H-6 and H-8 hockey skates with superlite or extrusion frames!!!

H6 $209 SL *Comp Chassis $89 Extra*
Designed for intense league play, a high-performance pro-stiff ballistic nylon stitched boot with Cambrel lining. Molded external ankle support, vented tongue with felt lining, removable anti-abrasion toe cage (not shown). Flush-mount axle system included, as well as Bauer Design Lab ABEC 1 bearings and 72mm 78A vented-core wheels.

H8 $249 SL *Pro Chassis $139 Extra*
This pro-quality, stiff stitched boot has full-grain leather exterior, reinforced with ballistic nylon and molded plastic in critical areas. Asymetrical cuff for anatomical fit, and "air bag" ankle pads form around the ankle. As with the H6, this skate comes with flush-mount axle system. Hyper Poweredge hockey wheels and Twin Cam ABEC 3 bearings included.

Bauer's new professional aluminum chassis is aircraft grade extruded aluminum and allows front and rear to be offset up to 10 mm from center to allow toe-in edging as well as pronation control and biomechanical correction. Skates On Haight has been mounting extrusion frames on hockey skates for years because hockey players want he same precision control and power as racers, plus full maneuverability.

ROCES! The original manufacturer of Rollerblade Skates!

Paris - CDG (40.340) $295.00

With the exceptional comfort of memory foam liners and anatomic footbeds, the Paris is a true high speed cruiser. Its one piece Lite-Tech aluminum alloy frame, Glide-Pin axle system and Hyper wheels make it the leading skate for club racing and training.

Moscow Ramp - MOW R $279.00

(40.320)

Put this skate to the test. The Moscow Ramp incorporates a bulletproof boot, memory foam liners, and the shock absorbing Plus System Get Anatomic Footbed. The chassis is the new Lite-Tech alumimum alloy frame with four offset 70mm Hyper Fat Boy wheels, aluminum spacers and the new Glide-Pine axle system. If there was ever a skate that loves to be punished, the Moscow Ramp is it.

Moscow - MOW $159.00

(40.325 Men 40.326 Women)

The Moscow provides a proven combination of comfort and performance for a wide range of skaters. The fine tuning and convenience of a lace/buckle closure system, the excellent fit of memory foam liners and an anatomic footbed, and the performance of a rockerable Aero-Light frame, work together to make this skate our most popular model and price point.

Barcelona - BCN $239.00

(40.303 Women 40.305 Men)

The Barcelona is a sleek, modern, fully ventilated skate for freestyle, cross training, or fast recreational skating. Micro-adjustable, ratchet buckles provide quick, convenient closure. Memory foam liners and an anatomic footbed provide maximum fit, support and comfort. And a rockerable Aero-Light frame provides the smooth, fast glide.

Los Angeles - LAX $199.00

(40.329 Women 40.330 Men)

One of our most popular fitness skates is the Los Angeles. The lace/buckle closure system provides a fine-tuned fit and convenient adjustment. For high performance fit we make this skate with memory foam liners, an anatomic footbed, and a rockerable Aero-Light frame.

Rome - FCO $85.00

(40.350 for Children)

The Rome is, of course, a classic. Developed for athletic beginners and budget conscious skaters, it offers the fine tuning of a combination lace/buckle closure system and the durability and performance of our rockerable Aero-Light Frame.

IN-LINE SKATE BAGS: (1) In-Line Bags folds to backpack 61.203 $29.90 (2) IBFT Fanny Pack 61.200 $29.90 (3) Skates On Haight Bag – the most popular in-line bag in the world!Colors Available. 61.100 $25.00

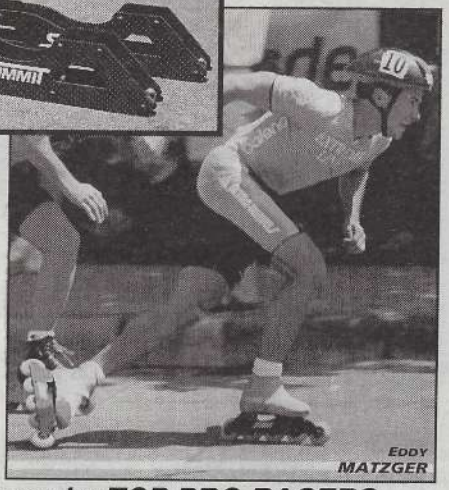
SUMMIT™



Race Proven by TOP PRO RACERS

Eddy MATZGER • Tony MEIBOCK

John SVENSSON • Ed IVES • Dan BURGER

Lee COLE • Dennis CUMMINGS

Scores of Victories in 1994

Summit Team Carbon 13.0S & 13.7S $339.00

This is the frame used by the Extreme Line Racing Team. This frame squashes the myth that carbon composite frames are "not stiff"! Lighter and stiffer than the Summit Team CX model, it provides an incredibly smooth ridge. Available in both 13 inch (13.0S) and 13.7 (13.7S) model lengths and have a black carbon fabric finish.

Summit Team CX 13.0S & 13.7S $279.00

Features a carbon hybrid continuous fiber composite frame. The Summit Team CX uses the same design principles as the Summit Team Carbon model to provide world class race performance with quick turning capability. Available in black carbon fabric finish, in both 13.0" and 13.7" lengths.

Summit Comp 13.0 & 13.7 $189.00

Features a continuous fiber composite frame with moderate stiffness. Gives a smooth but responsive ride. Designed for distance and cross training skaters, recreational racers, and lighter competitive racers. Dollar for dollar the best value in a performance frame. Available in both 13.0" and 13.7" lengths.

GET-N-LINE
SKATE GEAR

Get In-Line Skate Gear industrial strength clothing for In-liners.

Crew sweatshirts garment dyed earth tones,
100% heavyweight cotton fleece: $29.50

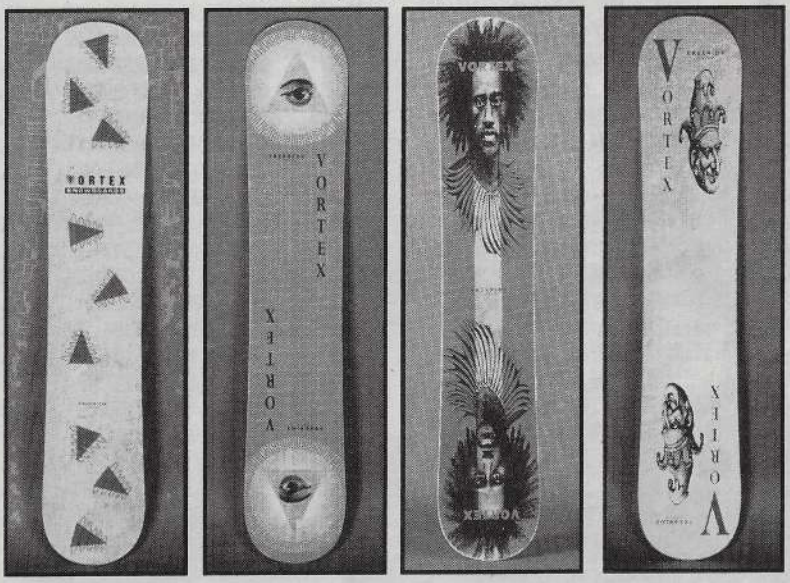
$319

Brand New 1995 styles! SOH Team logo on bottom of deck ONLY $299

The Vortex Power Series

Snowboards manufactured to the highest Austrian snowbaord-making standards - using vertically-laminated wood core, 2000 base, stainless steel inserts, 4x4 hole pattern, polished ABS deck and sidewalls, steel edges and a full one year warranty. System includes two-strap soft freestyle bindings made in California by a factory with over 7 years experience.



The Power Series 130, 140, 150 and 157

The Power Orb is Vortex's freeriding board for 1994-95. This versatile and responsive board is suited for a variety of riding styles. The Power Orb's low short nose-tail profile combined with its lightweight construction offers the freerider a perfect opportunity for spins and jibs in the half-pipe, and juniors a chance to rip and shred with the best - on the best!

The Power Orb's four sizes comprise a total freeride line: For kids and juniors on the Orb 130cm, for ladies on the Orb 140cm, and for demanding riders (as well as entry-level adults) on the Orb 150cm and 157cm models. All in all, the Power Orb series is the most reliable performance board on the mountain!

3/32nd Solution for Inline Skating

54.332 Delron disks – elevate the right leg in 1/8" increments. Contoured sole boots such as Bont, Technic and Fanatic require 2 disks. Flat soled boots such as Riedell 100's may require 3 disks. Disks can be stacked for skaters who require 1/4" or more adjustment. Disks are sold individually for $5.00 each.

Especially benefits left hand and ambidextrous athletes and/or any skater whose upper body rotation is over the right leg. You can tell if you qualify because your right glide will be longer than your left glide. Helps to eliminate lower back and hip pain and tightness of hamstring muscles.

The 3/32nd Solution equalizes stride by minimizing functional leg length discrepancy; therefore improving posture, timing and technique. USAC Short Track Skaters will experience greater cornering ability.

14.003 Articles about 3/32nd Solution: free of charge.

3/32nd Solution for Snowboarding

28.202 The Equalizer by Billiard $11.90 pkg.

Delron plates 1/8" thick go between sole of right boot and top of binding base. To be used under right leg only! This unique flat-cant simultaneously enhances forward rotation over the left leg for those who snowboard regular foot and checks forward rotation over the right leg for those who snowboard goofy foot.

For recreational freeriding use only one plate. For extreme snowboarding stack two plates to create 1/4" flat-cant.

The Body According to Cole

1. Almost all people have legs and arms of equal length.
2. Most people's right hip is tilted higher than their left hip.
3. Pelvic tilt makes the right leg functionally shorter than the left leg.
4. Pelvic tilt enables a right-handed person to use their left leg as a brace (guide) when using tools or throwing objects.
5. A right-handed person's upper body always rotates counter-clockwise over the functionally longer left leg, minimizing functional leg length discrepancy.
6. A left-handed person's upper body always rotates clockwise over the functionally shorter right leg, exaggerating functional leg length discrepancy.
7. Pelvic tilt increases with age and injury.
8. Solution: For right-handed people, shoes should be commercially manufactured with a minimum 3/32" thicker right sole than left sole to equalize stride. If this were done, posture, strength and balance for sports and all daily activities would improve. Elderly people or left-handed people of any age may require more lift (up to 1/4" thicker right sole).
